

CIS 500 – Fundamentals of Software Practice

Weekly Exercise #10

Topic: Recursive Functions

Assignment:

- Complete the following functions in file **WEX-10.py**. You MUST implement these functions using recursion.
 - **triangle()**
 - **sum_digits()**
 - **count_hi()**
- To run your program, use the following commands: `python WEX-10.py`

What to turn in on Blackboard?

- Run and test your code to make sure it works correctly.
- Upload the file **WEX-10.py** on Blackboard by midnight of due date
